

# **Birthright and Legacy Prayer and Revocation for Right Relationship with My Ancestors**

In this moment of continuous now, as this sovereign being , I acknowledge with gratitude that because of my own soul interaction and choices in the seen and unseen world , the patterns of connection and interconnectivity of my soul family and the weave of manifestation of my dna bloodline human ancestors upon this earth, and the support of our non human ancestors like animals and elementals, that I have beautifully manifested with exquisite timing into my divine place on earth in this time space equation as a magnificent dna soul connected being carrying all those potentials that have been honed and gathered as all these ancestors experienced manifested life here.

From my heart I acknowledge with wonderment and appreciation that they lived, toiled, wept, suffered yet they healed, sung, danced and laughed. And they learned the lessons they could of life on Earth. The ever increasing sum total of their experiences covers the full spectrum that living on earth brings. For that is why they came. Their relevance is as potent today as when they lived on earth. And their experiences are our gifts.

With a heart of joy and gratitude I step forward and claim my birthright and legacy to these gifts. I accept that Torch of Eldership passed from soul to soul from lineage to lineage , from generation to generation. From the very first ancestor who dreamed us all into existence. I open my heart, I open my superluminal pathways, I open my frequency to fully accept all these gifts and blessings. All the victories, the teachings, the love, the knowledge that is my birthright and legacy to claim. For I am them and they are me. Intertwined, inter woven through time and no time. A Unity of colours that flows and creates the right relationship between the unseen and seen worlds. And for those unhealed ancestors I claim my birthright and legacy to work in right relationship with the healed, well ancestors to clear all the harmful patterns, through my great work of self healing. Through right words, joy and dance to transform the pattern into a teaching of what is possible when we all work together in the seen and unseen to outcreate and transmute these patterns.

We share dna in the bloodlines and soul connection in the soul families and where these combine we have even more potency. I now claim my birthright and legacy to have my soul family as my dna lineage , as my friends as my one degree of separation. For this has been lost throughout history as the teachings of the indigenous have been overwritten with the global narrative of deceit. I claim all those prayers, poems , stories , all the lost teachings, all the wisdom from our elders, all the rituals and ceremonies, all the elemental connections, all that was good and true and beautiful that was handed down generation after generation until technology and television, media and global narrative reduced them to ridicule and mythology, to fantasy and supposed

untruths. And I revoke any part of the global narrative and media that ignores , deletes and misrepresents this natural flow of wisdom of living on earth . For these ancient truths are the natural flow of the universe through us all and no system mispresentation and manipulation, no unwell unsovereign ancestor , no aspect of fraud time can prevent this natural flow for it is supported by universal energies and carries the full force and potency of millions of healed ancestors creating the divine law of one. It's unstoppable. It flows whether we accept it or not. I allow, I accept with gratitude this full flow as unfettered unadulterated legacy so I may be the medicine this world needs.

Aho
